#RIDE BEYOND

SWAGTRON

Swagtron is located in Los Angeles, California (USA). It is currently the World leader in Hoverboards and Personal Mobility Products.

Swagtron is one of the pioneers of "hands-free smartboard" and in 2016, Swagtron reincarnated the commonly known term "Hoverboards" in its safest form, by becoming the only product in the world to pass the strict safety standards set for self balancing scooter industry by Underwriter Laboratories (UL).

Swagtron's endeavor has always been to stay ahead in technology & lead through innovation.

The Swagtron is a zero emissions product and environmentally friendly. All the products of Swagtron are UL 2272 certified and uses gyroscopic technology.

SWAGTRON IS UNIQUE

Ride miles in one charge, 100% safe UL certified, high-tech self balancing wheel, double balance with the in-built gyroscope and gravity sensor.
